

To Whom it May Concern:

I currently subscribe to XM Radio. I would like to express my concern over the FCC limiting or getting rid of XM Radio. I absolutly love my service. I get to listen to the music, weather, and news that I want, and I don't have to listen to the same old stuff that's always on the radio. I went to a paid subscription to get away from commericals and DJ's babbling on about nothing. Satellite radio provides variety and quality that are not available elsewhere.

I pay for these services, and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear.

I Respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I demand, deserve, and pay for...this is still a free country right?

Thank You,
John Guerra
